

Experienced fullstack developer specializing in Typescript and Next.js, which are my main strengths. I have extensive freelance experience, demonstrating a high degree of autonomy, the ability to quickly get up to speed on new topics, and strong problem-solving skills. I am also well-versed in current AI practices and related processes within product and technical environments. Trilingual in French, English, and Spanish, I integrate easily into international teams.

Experience

February 2026 – Today	Fullstack developer, Freelance	Remote
I conducted cold calls and developed digital solutions for my clients.		
• TVTI: Development of a mobile application for construction site management. • DPS Logistics: Implementation of a post-sale customer survey form. • Anonymous: Development of an online Blackjack game. • La Reine des Blés, Le Paddock, Droguet Menuiserie: Brochure websites.		
Technologies used: Next.js, Typescript, Svelte, Sanity, React Native + Expo, Claude Code + mattpocock/skills.		
November 2024 – January 2026	Fullstack developer, Dotworld	Lausanne, Switzerland
I contributed to the development and modernization of two SaaS (<i>makemycv.com</i> , <i>fileworld.co</i>).		
• Led the migration of a PHP codebase to Next.js and Typescript, reducing technical debt and improving page load speed. • Implemented new file-processing features, including PDF locking/unlocking and audio-to-text conversion. • Created a builder for generating CVs, cover letters, and resignation letters. • Vibecoded internal tools to streamline the team’s workflow. • Implemented AI-powered pull request reviews to improve code quality. • Deployed an A/B testing infrastructure to guide product decisions. • Integrated a centralized PSP management system.		
Technologies used: Next.js, Typescript, Laravel, MongoDB, Claude Code.		
August 2022 – September 2024	Frontend developer, Radio France	Paris, France
I contributed to the evolution of a high-traffic media platform (<i>radiofrance.fr</i>).		
• Improved page accessibility. • Redesigned UI components to comply with WCAG 2.1 accessibility standards. • Implemented end-to-end and unit tests.		
Technologies used: SvelteKit, Typescript, Storybook, GraphQL.		
November 2021 – July 2023	Frontend developer, Synerg’hetic	Paris, France
I led the complete frontend development of two SaaS platforms (<i>vitaliplay.fr</i> , <i>atabulapp.com</i>).		
• Designed a digital healthcare platform for people aged 55 and over. • Developed an application connecting hospitality professionals with industry-specific job opportunities.		
Technologies used: Next.js, Typescript, Tailwind CSS, Directus, Strapi.		

Education

October 2021 – September 2024	Bachelor Web developer (HETIC)	Paris, France
Design and development of digital solutions.		

Skills
